New and Forthcoming Titles

Welcome

Welcome to the January to June 2019 Library Reference catalogue.

Our reference works have earned an outstanding reputation for their accuracy and reliability and are used extensively world-wide. We offer a range of print and online resources, providing librarians, researchers, teachers, students and professionals with access to authoritative Routledge Reference content.

We welcome your feedback on our publishing programme, so please do not hesitate to get in touch – whether you want to read, write, review, adapt or buy, we want to hear from you, so please visit our website below or please contact your local sales representative for more information.

www.routledge.com

Prices are correct at time of going to press and may be subject to change without notice. Some titles within this catalogue may not be available in your region.

eBooks

We have over 50,000 eBooks available across the Humanities, Social Sciences, Behavioural Sciences, Built Environment, STM and Law, from leading Imprints, including Routledge, Focal Press and Psychology Press. These eBooks are available for both individual and institutional purchase.

INDIVIDUALS

Our eBooks are available from Amazon, Apple iBookstore, Google eBooks, Ebooks.com, Kobo, Barnes & Noble, Waterstones, Mobipocket, VitalSource, and CourseSmart.

LIBRARIES AND INSTITUTIONS

Subscribe to or purchase a wide range of eBook packages or pick and mix your own from our complete collection (a minimum number of titles applies). FREE TRIALS are available. For more information, please visit www.tandfebooks.com or contact your local sales team.

eUpdates

Register your email at www.tandf.co.uk/eupdates to receive information on books, journals and other news within your area of interest.

Partnership Opportunities at Routledge

At Routledge we always look for innovative ways to support and collaborate with our readers and the organizations they represent.

If you or your organization would like to discuss partnership opportunities, from reciprocal marketing activities to commercial enterprises, please do get in touch on partnerships@routledge.com.

Considering Books for Course Use?

This symbol shows books that are available as complimentary exam copies for lecturers or faculty considering them for course adoption. To obtain your copy visit the URL listed beneath the title in the catalog and select your choice of print or electronic copy.

Visit www.routledge.com or in the US you can call 1-800-634-7064.

This symbol shows books that are available as electronic inspection copies only.

Trade Customers' Representatives, Agents and Distribution

3 Volume Set

British Nautical Melodramas, 1820–1850

Arnold Schmidt, California State University, USA

Until recently, melodramatic plays received little scholarly attention but their value as reflections of Britain's promulgation of imperial ideology, and its role in constructing and maintaining class, gender, and racial identities, have given discussions of melodrama force and momentum. The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth-century editions. Each play is transcribed from the original documents with full annotations and comprehensive editorial apparatus. A bibliography, index, appendices and numerous images have been compiled to further aid study.

Edited by Simon Humphries

Series: Critical Heritage II

This volume presents the reception of Christina Rossetti's work by her Victorian readers and integrates their critical responses with the evidence of her literary life and publication history. It sets a new foundation for the study of one of the great English poets and will be an indispensable resource for scholars and students of Christina Rossetti and Victorian literary culture.

4 Volume Set

Gender and Popular Culture

Edited by Katie Milestone and Anneke Meyer

Series: Critical Concepts in Media and Cultural Studies

The interconnections of gender and popular culture are multiple and varied, and serious scholarly work that examines gender through the lens of popular culture—and vice versa—is of central and growing significance in the academy. Now, this timely 4 volume collection brings together a well-considered balance of foundational and cutting-edge scholarship. With a focus on examples drawn from digital culture, fashion, music,

mass and new media—and an intersectional approach to gender—*Gender and Popular Culture* provides a comprehensive and exciting 'one-stop' compendium.

4 Volume Set

Globalization and the Media

Edited by **Terhi Rantanen**, London School of Economics, UK and **Cesar Jimenez-Martinez**

Series: Critical Concepts in Media and Cultural Studies

As serious academic work on and around globalization and the media continues to flourish as never before, this new title meets the need for an authoritative reference work to make sense of a rapidly growing and ever more complex corpus of literature, and to provide a map of the area as it has emerged and developed. It is a landmark collection of foundational and the

best cutting-edge scholarship in the field and is organized in four volumes.

4 Volume Set

Neuroeconomics

Edited by **Jack J Vromen**, Erasmus University of Rotterdam, the Netherlands and **Caterina Marchionni**, University of Helsinki, Finland

Series: Critical Concepts in the Social Sciences

In recent years there has been an astonishing growth in scholarly work at the intersection of economics, neuroscience, and psychology. As neuroeconomics (as this domain is usually known) continues to blossom, this new title from provides a much-needed compendium of foundational and the very best

scholarship. The collection also assembles pioneering manifestos and explicates how—rather than being merely an ‘underlabourer’ of economics or neuroscience—neuroeconomics is becoming a specialized discipline in its own right with distinct research methods, insights, and results.

4 Volume Set

Indigenous Peoples and the Law

Edited by **Denise Ferreira da Silva**, Queen Mary University of London, UK and **Mark Harris**, La Trobe University, Australia

Series: Critical Concepts in Law

Research in and around Indigenous Peoples and the Law is now very wide-ranging and flourishes as never before. This new 4 volume collection meets the need for an authoritative anthology to make sense of the subject’s vast and dispersed literature and the continuing explosion in research output. Drawing on a wide variety of materials from a broad range of disciplines and

theoretical approaches, the collection gathers canonical and cutting-edge major works in a ‘one-stop’ resource to enable users to understand how the law Indigenous Peoples encounter has been transformed from an oppressive, rights-denying system to a site of contestation and for the articulation of claims.

4 Volume Set

Linguistic Typology

Edited by **Irina Nikolaeva**

Series: Critical Concepts in Linguistics

This new four volume collection on Linguistic Typology will be an essential source of reference for linguists of all theoretical convictions. It will provide a state-of-the-art overview of work on linguistic typology, its history, its methodology, theoretical foundations and major achievements. It will also examine the directions of current research and show how these reflect and inform work on linguistic theory, as well as related fields such

as historical linguistics, language acquisition and language documentation.

8 Volume Set

Collected Works: Benedetto Croce**Variou***Series: Collected Works*

Originally published between 1921 and 1950 the volumes in this collection showcase many of the most important philosophical, political and literary works of Benedetto Croce. The volumes discuss key political, philosophical and aesthetic issues such as freedom and historical judgment; reveal notes made by Croce from private meetings with Allied forces during 1943 and 1944; examine and explain the literature of Dante,

Goethe, Shakespeare, Ariosto and Corneille; discuss the conception of liberty, liberalism and the relation of individual morality to the State.

Its Meaning

Edited by Ruth Nanda Anshen

Series: Collected Works

Originally published in 1942 this book brings together contribution from some of the finest thinkers and philosophers of the 20th century such as Boas, Croce, Einstein, Haldane, Mann, and Russell. The volume discusses the problem of Freedom from diverse points of view and offers a synthesis of issues and conclusions relating to freedom as a basis for action with a view to try and fill the gaps existent in the study of the nature of Man.

Extracts from a diary by Benedetto Croce, July 1943 - June 1944

**Benedetto Croce***Series: Collected Works*

Originally published in English in 1950 this is one of the most revealing works by one of Italy's foremost philosophers of the 20th century, who was also a courageous and effective opponent of Fascism. Following the Allied landing at Salerno, Croce was called upon by kings, princes, generals and politicians and asked to decide question of vital importance to Italy. This book documents the notes Croce made on political matters in 1943 and 1944.

My Philosophy

Essays on the Moral and Political Problems of our Time

Benedetto Croce and E. F. Carritt

Series: Collected Works

Originally published in 1949, Croce's essays on political, philosophic and aesthetic subjects, selected from both his earlier and later writings possess a remarkable underlying unity. The political essays which form a major part of this volume display a criticism, either direct or implied of the mass creeds and movements that subordinate the individual to history. They combine a passionate belief in liberty with critical and historical judgment.

Politics and Morals

Benedetto Croce

Series: Collected Works

Originally published in 1946, this book reveals Croce's dynamic conception of liberty, liberalism and the relation of individual morality to the State. The State which he discusses is more than a national government; it is a historical conception which takes in all 'states' - local and international. The volume provides an inspired analysis of the relation of politics and morals, individual liberty, free enterprise and pragmatic social judgement.

16 Volume Set

Psychology Library Editions: Personality

Various

Series: Psychology Library Editions: Personality

The study of personality has a long history and many different theoretical viewpoints within psychology. *Psychology Library Editions: Personality* (16 Volume set) presents titles, originally published between 1950 and 1997, covering many of these traditions and theories. It includes contributions from many well-respected academics and is a fascinating insight into this diverse field.

Readings in Cross-Cultural Psychology

Edited by J. W. Berry and P. R. Dasen

Series: Psychology Library Editions: Personality

First published in 1974, studies of cultural influences on cognition, carried out from a variety of theoretical and methodological stances, were collected for the first time in this volume. The editors placed particular emphasis on selecting material by authors from many countries who had been working with people from a wide range of cultures. In a general introduction they provide an historical overview of the major issues, and draw together the most recent attempts to bring methodological sophistication to this difficult area of enquiry. A comprehensive bibliography with over 600 entries is included in the volume.

* For full contents and more information, visit: www.routledge.com/9780367109882**An Introduction to Personality Study**

Raymond B. Cattell

Series: Psychology Library Editions: Personality

Originally published in 1950, the need for a small standard text on basic principles of personality structure and development had been very apparent to teachers of psychology for some time. There were many books illustrating specialized or applied aspects of the psychology of personality, but lacking was a treatment of personality study as pure psychology, concentrating on the fundamentals. The aim of this title was therefore to bring the general problems of personality description and development, normal and abnormal, into a single perspective and to integrate the principle fields of observation in clear cut generalizations.

A Developmental Perspective on Behavior and Personality

Donald H. Ford

Series: Psychology Library Editions: Personality

Originally published in 1987, the purpose of this title was to develop a conceptual framework for understanding individual humans as complex, functional entities. It was felt that a sound developmental theory of human personality and behaviour would help synthesize existing scientific and clinical information into a coherent representation of a person as a functional unit, guide future research, and facilitate the work of the health and human services professions. The volume is aimed at a multidisciplinary-multiprofessional audience.

* For full contents and more information, visit: www.routledge.com/9780367111762**Approaches to Personality Theory**

David Peck and David Whitlow

Series: Psychology Library Editions: Personality

Originally published in 1975, this book reviews the major personality theories influential at the time, including those of Freud, Kelly, Cattell, and Eysenck, and presents the main assessment techniques associated with them. It also discusses their application in such fields as abnormal psychology, diagnosis, psychotherapy, education and criminology. The authors find none of the theories completely satisfactory, but pinpoint important successes and suggest a promising new approach.

Putting the Framework to Work

Edited by Martin E. Ford and Donald H. Ford

Series: Psychology Library Editions: Personality

Originally published in 1987, the purpose of this companion volume was to illustrate the potential utility of the Living Systems Framework (LSF) for stimulating new theoretical advances, for guiding research on human behavior and development, and for facilitating the work of the health and human service professions. Although not exactly a "how to" manual, it does provide many concrete examples of how and when the framework can be used to guide scholarly and professional activities. It also provides a concise overview of the framework itself that can help in understanding the basic concepts of the LSF and in deciding whether and how the framework might be

useful to them.

Inquiring Man

The Psychology of Personal Constructs (3rd Edition)

Don Bannister and Fay Fransella

Series: *Psychology Library Editions: Personality*

Originally published in 1986, this was a new and completely updated edition of the book which, since 1970 had introduced a whole generation in English psychology to Kelly's theory of personal constructs. By setting out a broadly designed and experimentally illustrated view of people as self-inventing explorers and interpreters of their world it challenged the 'mechanical man' of orthodox psychology. It proved a source of radically new ideas in psychotherapy, education and industry. This revised edition shows how the theory's professional applications have spread ever wider, while many have realised that personal construct psychology contains, for them, the core

of a personal philosophy.

Interaction Concepts of Personality

Robert C. Carson

Series: *Psychology Library Editions: Personality*

"Personality" is an intimidatingly complex area of human behaviour, where empirically valid generalizations are not easily established or formulated, and where investigators at the time were themselves a long way from the development of a commonly shared language and conceptual system. Originally published in 1969, Dr Carson's book provided, for the first time, an empirically grounded, systematic framework to analyse, describe, and to some extent explain the transactions that occur between people from a standpoint of a personologist. It brings together, within an integrating framework, diverse trends from modern behaviour theory, personality, social psychology, and

behaviour disorder.

Macrostructures

An Interdisciplinary Study of Global Structures in Discourse, Interaction, and Cognition

Teun A. van Dijk

Series: *Psychology Library Editions: Personality*

Macrostructures are higher-level semantic or conceptual structures that organize the 'local' microstructures of discourse, interaction, and their cognitive processing. They are distinguished from other global structures of a more schematic nature, which we call *superstructures*. Originally published in 1980, the theory of macrostructures outlined in this book is the result of research carried out during the previous 10 years in the domains of literary theory, text grammar, the general theory of discourse, pragmatics, and the cognitive psychology of discourse processing. The presentation of the theory is systematic but informal and at this stage was not intended to be fully formalized.

Margins of the Mind

Frank Musgrove

Series: *Psychology Library Editions: Personality*

Originally published in 1977, the author examines change in adults principally in terms of a modification of consciousness through the experience of marginality. With the help of interviews, he discusses seven groups in contemporary Britain at the time, found in the 'margins' of society. Three of the selected groups are involuntary and stigmatized: men and women who have gone blind as adults; handicapped people in a home for the incurably disabled; and homosexuals. The other four groups enjoy high-status and voluntary marginality: late-entrants to the Anglican ministry; self-employed artists; a Sufi commune of Islamic mystics; and a Hare Krishna commune.

Personality Disorders

New Symptom-Focused Drug Therapy

S. Joseph

Series: *Psychology Library Editions: Personality*

Originally published in 1997, using 50 pharmacological case studies, this title illustrates how chronic and difficult psychiatric disorders ranging from paranoid to obsessive-compulsive personality disorder can be responsive to treatment. Readers are first taught to translate DSM-IV diagnostic criteria to identifiable and treatable symptom correlates which are then targeted for treatment using rationally chosen medications or combinations of medication along with psychotherapy. Since medications rapidly control dysfunctional symptoms, psychotherapy becomes much more effective, enabling psychotherapists and patients to focus on underlying

psychosocial issues and conflicts.

Prophecy, Behaviour and Change

An Examination of Self-fulfilling Prophecies in Helping Relationships

Gerald G. Smale

Series: *Psychology Library Editions: Personality*

Professional helpers may harm their clients instead of helping them. This is one of the important implications – for the selection, training and practice of members of the helping professions – of the evidence reviewed in this book. Originally published in 1977, Gerald Smale argues that the expectations of the professional helper, whether social worker, doctor, psychiatrist, psychoanalyst, psychotherapist or counsellor, can act as self-fulfilling prophecies on his or her clients, for better or worse. The book demonstrates that it is the *behaviour* of the worker towards the client which is of crucial importance.

The Construction of Personality

An Introduction (Second Edition)

Sarah E. Hampson

Series: *Psychology Library Editions: Personality*

First published in 1988, this title has been substantially revised and updated. The author provides an introduction to current theory and research in the psychology of personality at the time and examines this work from the perspective of constructivism. As a consequence of this constructivist approach, the book covers topics from social psychology (e.g. person perception, impression formation) as well as more conventional areas of personality. In this new edition the constructivist perspective is emphasized by the addition of a new chapter in which the constructivist approach to personality is presented, and the chapters on the lay and self perspectives have been extensively

re-written.

The Optimal Personality

An Empirical and Theoretical Analysis

Richard W. Coan

Series: *Psychology Library Editions: Personality*

The terms mental health, maturity, personality integration, self-actualization have been used by psychologists to represent the realm of the ideal or optimal personality. First published in 1974, the author here describes a method of analysing this domain, and examines the important theoretical implications of his findings. He developed instruments to measure various characteristics, including personal consistency, the experience of control and openness to experience, which are associated with current concepts of sound psychological functioning. A battery containing these instruments was administered to several hundred subjects and analysed. The results, reported here, are

enlightening.

The Meaning of Behaviour

J.R. Maze

Series: *Psychology Library Editions: Personality*

Originally published in 1983, this title is a determined attack on personality theories current at the time. It critically examines their basic motivational constructs and rejects any that invoke goal-seeking as being inescapably teleological and therefore unacceptable as natural science. Dr Maze argues the necessity for an unqualified determinism in psychology, yet one that incorporates the role of cognitive processes in the formation of behaviour. The book will be of interest to all those seriously concerned with the springs and meanings of human behaviour, whether they be psychologists, psychoanalysts, philosophers or those generally interested in social and ethical theory.

Theories of Personality

A Systems Approach

David Lester

Series: *Psychology Library Editions: Personality*

Designed as a text for both graduate and undergraduate students, this book, originally published in 1995, presents an intrapsychic explanation of human behaviour – concepts based on psychological processes and ‘structures’ within the mind. In this context, a unique treatment of personality theory is introduced. It focuses on Freud, Kelly and Angyal: Freud’s psychoanalytic theory of personality based on desires, Kelly’s personal construct theory for thinking, and Angyal’s holistic concepts of personality.

The Nature of Human Personality

G. N. M. Tyrrell

Series: *Psychology Library Editions: Personality*

For over thirty years G. N. M. Tyrrell devoted himself to the study of psychical phenomena. Originally published in 1954, in his last book, written just before his death, he probes as deeply as possible into the meaning of the results of psychical research. He believes that paranormal phenomena are not isolated occurrences due to the exceptional gifts of a few unusual persons but the result of capacities which all human beings possess, though in widely varying degrees. The book includes a general criticism of current attitudes towards the subject at the time. The book ends arguing that the normal and paranormal are one and suggesting a pathway to religion.

An Introduction to Kant's Philosophy

Norman Clark

Series: Routledge Library Editions: 18th Century Philosophy

Emmanuel Kant has the distinction of having introduced a great revolution into philosophy and yet stood the test of time. He stands as one of the great foundation stones of modern thought. This book, first published in 1925, covers Kant's works essential to his philosophy as a system, and also illustrates his position in the history of thought. It is a clear and accurate statement of Kant's chief doctrines.

Berkeley on Abstraction and Abstract Ideas

Edited by Willis Doney

Series: Routledge Library Editions: 18th Century Philosophy

Berkeley's critique of abstract ideas in the Introduction to *Principles of Human Knowledge* has provoked a great deal of commentary of various sorts. This anthology, first published in 1989, presents a selection of historically important and philosophically interesting discussions on Berkeley's theories.

Berkeley: The Philosophy of Immaterialism

I.C. Tipton

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1974, presents a critical examination of Berkeley's immaterialism. It is based on a detailed study of his writings (in particular of his notebooks), and while it places his ideas against their eighteenth-century background it also takes into account the various interpretations of Berkeley found in the literature.

Berkeley's Doctrine of Notions

A Reconstruction Based on his Theory of Meaning

Daniel E. Flage

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1987, offers a reconstruction of Berkeley's doctrine on notions by examining the implications of his repeated suggestion that there is a close relationship between his doctrine and his semantic theory. The study ties in with some of the most important topics in modern analytic philosophy, and casts important light on modern philosophical concerns as well as on Berkeley's thought.

David Hume: His Theory of Knowledge and Morality

D.G.C. MacNabb

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1951, is an examination of Hume's 'Treatise of Human Nature', 'An Enquiry Concerning the Principles of Morals', and 'An Enquiry Concerning Human Understanding'. It lucidly clarifies and makes alive the new discoveries of Hume's works in a study that makes plain the importance of this philosopher to the world today.

David Hume's Theory of Mind

Daniel E. Flage

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1990, is a detailed examination of David Hume's *Treatise of Human Nature*. It shows that the theory of mind developed in the *Treatise* is a thread which ties together many of the seemingly unrelated philosophical issues discussed in the work. Hume's primary objective was to defend a 'bundle theory' of mind, and, through a close examination of the texts, this book provides a thorough account of how Hume understood this theory and the problems he discovered with it.

Hume's Skepticism in the Treatise of Human Nature

Robert J. Fogelin

Series: Routledge Library Editions: 18th Century Philosophy

This work, first published in 1985, offers a general interpretation of Hume's *Treatise of Human Nature*. Most Hume scholarship has either neglected or downplayed an important aspect of Hume's position – his scepticism. This book puts that right, examining in close detail the sceptical arguments in Hume's philosophy.

Kant on Absolute Value

A Critical Examination of Certain Key Notions in Kant's 'Groundwork of the Metaphysics of Morals' and of his Ontology of Personal Value

Patrick Æ. Hutchings

Series: Routledge Library Editions: 18th Century Philosophy

The thesis of this book, first published in 1972, is that Kant's notions of 'absolute worth', the 'unconditioned' and 'unconditioned worth' are rationalistic and confused, and that they spoil his ontology of personal value and tend to subvert his splendid idea of the person as an End in himself.

Language, Subjectivity, and Freedom in Rousseau's Moral Philosophy

Richard Noble

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1991, has two related goals. The first is to explicate Rousseau's conception of subjectivity; the second is to trace the influence of that conception on his theory of freedom. It argues that Rousseau's conception of subjectivity provides us with a basis for understanding both his analysis of the 'social problem' of advanced civil societies, and the solutions he proposes to this problem.

Money, Obedience, and Affection

Essays on Berkeley's Moral and Political Thought

Edited by Stephen R.L. Clark

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1985, presents a key collection of essays on Berkeley's moral and political philosophy. They form an introduction to, and analysis of, Berkeley's immaterialist arguments, part of his consciously adopted strategy to subvert Enlightenment thought, which he saw as a danger to civil society.

Rousseau and the Modern State

Alfred Cobban

Series: Routledge Library Editions: 18th Century Philosophy

First published in 1934, and revised and expanded in 1964, this book is the standard work on the political thought of Rousseau. It was acclaimed by English reviewers as 'an excellently arranged, lucidly written, unbiased account of Rousseau's political theory', a 'scholarly book, distinguished for lucidity both in thought and style', and a 'first-rate book in defence of the essential sanity of Rousseau's thought'.

Rousseau: Stoic & Romantic

Kennedy F. Roche

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1974, studies the similarities between Rousseau's thought and that of the Stoics, examining Rousseau's ideas on man, society, the state and government. It makes close reference to Rousseau's writings, and to the works of Seneca and other Stoics, presenting an opportunity to really come to grips with a complex and often contradictory mind.

The Real in the Ideal

Berkeley's Relation to Kant

Edited by R.C.S. Walker

Series: Routledge Library Editions: 18th Century Philosophy

This book, first published in 1989, presents sixteen articles on Kant and Berkeley, examining their attitude to the physical world. They were both idealists, regarding the physical world as being in some way a product of perceptions and thought. At the same time they both held it to be no mere illusion, but real and objective: it was in a sense ideal, but in a different sense also real.

Published in Honour of Dr. David Patterson on the Occasion of His Seventieth Birthday

Edited by Glenda Abramson and Tudor Parfitt

Series: Routledge Library Editions: Education and Religion

First published in 1994. This volume, dedicated to Dr David Patterson, founding President of the Oxford Centre for Postgraduate Hebrew Studies, takes as its theme Jewish education and learning throughout the ages. For almost three thousand years centres of Jewish learning have flourished in many parts of the world. This volume discusses these institutions from biblical times to the present. The essays explore the nature and function of the 'Jewish Academies' in the broadest sense, the leading personalities associated with them and their social, cultural and moral effect on the Jewish communities of their day.

Edwin Cox

Series: Routledge Library Editions: Education and Religion

First published in 1966. The author examines the problems which face the teacher of Religious Education at the time of widespread doubt. He reviews studies of the formation of religious beliefs and attitudes in the young, and suggest a new strategy for the subject, whereby at each stage of education the teacher has a definite but limited aim, appropriate to the children with whom they have to teach.

Edited by John Hull

Series: Routledge Library Editions: Education and Religion

First published in 1982. This book brings together some of the most influential articles which had moulded British religious education. The articles are divided into specialised sections dealing with various aspects of the subject so that the main developments are clearly indicated. The book provides, both the general reader, the student teacher and the specialist religious education teacher, an easily accessible collection of many of the materials which had created British religious education.

Edited by Peter D. Pumfrey and Gajendra K. Verma

Series: Routledge Library Editions: Education and Religion

First published in 1993. This volume brings together writings of specialists in the key components of both the whole and the basic curriculum. It sets out to describe and discuss cultural diversity and the whole curriculum from a variety of perspectives and to consider how the concerns of ethnic groups may be addressed within the framework of the national curriculum. To this end, specialists in areas of the curriculum consider some of the challenges and describe promising practices in the secondary school.

A Basis for Developmental Religious Education

Ronald Goldman

Series: Routledge Library Editions: Education and Religion

First published in 1965. In this study the author explores the implications of research for an alternative approach to religious education. The book deals with the psychological bases of religious development, reviewing the natural limitations as well as the basic needs of the young, and how religious education should be affected by educational theory and practice.

The author also examines what content and methods of teaching are consistent with the healthy development of children and adolescents. Teachers in schools and students in training will welcome the book as an important aid to the task of rethinking

syllabuses and the need for more child-centred methods of teaching.

Religious Education 1944-1984

Edited by A. G. Wedderspoon

Series: Routledge Library Editions: Education and Religion

First published in 1966. Under the 1944 Act, the only compulsory school subject was Religious Instruction. Books and research findings revealed a critical situation, and many educationalists, churchmen and parents believed a review of the problem was vital.

This book presents the considered views of a group of distinguished educationalists who met in London in April 1965 under the auspices of the Institute of Education. It also includes the comments by members of Parliament, church leaders, university and school teachers who were present and the whole

contains a frank and valuable expression of expert opinion upon a very controversial subject.

Teaching Morality and Religion

Alan Harris

Series: Routledge Library Editions: Education and Religion

First published in 1976. It can be argued that both moral and religious education are undervalued in schools. The author, Alan Harris, believes that too many people think of them as indoctrinatory subjects with moral educators' telling people what they ought to do and religious educators telling them what they ought to believe. By a combination of practical examples of both good and bad teaching from the classroom and clear, analytical examination of what is meant by moral and religious education, the author shows that the object of both subjects should be to help pupils form their own judgements.

Religious Education 5-12

Derek Bastide

Series: Routledge Library Editions: Education and Religion

First published in 1987. The book is intended for class teachers (and trainee teachers) in primary schools who wish to teach religious education well but are unclear as to how they might. The book maps out the changes that had taken place with regard to changing aims and objectives in the subject. It investigates ways in which the teacher can approach religion in the classroom. It also recognizes that many teachers are not confident themselves in the world of religion and attempts to provide information and understanding at the teacher's own level. Overall the book sets out to be a straightforward, practical guide to the primary classroom teacher.

World Faiths in Education

Edited by W. Owen Cole

Series: Routledge Library Editions: Education and Religion

First published in 1978. The world religions movement gave way to a new form of religious education which was wide ranging in content and open in approach. This book is devoted to examining the place of world faiths in education by members of a variety of faiths. It will help students and teachers to think their way through the many challenges facing RE today. The contributors hope that they have provided a sign-post pointing to a future in which all who are concerned that children should grow up with an understanding of the ultimate meaning of life, whatever their own faiths, may be able to work together to make the subject vital and worthwhile.

Studies in Religion and Education

John M. Hull

Series: Routledge Library Editions: Education and Religion

First published in 1984. John M. Hull was a leading figure in the controversies which had surrounded religious education since the late 1960s. This book brings together in one volume 21 of his published papers and articles, which had previously appeared in journals, conferences, reports and books in Belgium, Australia, Canada, the United States, as well as the United Kingdom. This book is essential reading for all teachers, clergy, parents and students seriously concerned with the issues confronting religious education and Christian upbringing in our secular and pluralist world.

After Full Employment

John Keane, University of Sydney, Australia and John Owens, The University of Westminster, UK

Series: Routledge Library Editions: Employment and Unemployment

First published in 1986. This book analyses the four main and competing political interpretations of the cause of unemployment and the future of paid work – social democracy, free market liberalism, the disciplinary state, and utopian socialism.

By focusing on an issue which was, and still is, at the heart of political debate, the book provides a lucid and approachable guide to four key strands of political thought in Britain and the US. It will be an ideal introductory text for students of politics, sociology and economics.

Equal Employment Opportunity and Affirmative Action

A Sourcebook

Floyd D. Weatherspoon

Series: Routledge Library Editions: Employment and Unemployment

First published in 1985. In this remarkable book, the author has compiled a large collection of resource material that will be of benefit to the student as well as the practitioner of equal employment and affirmative action (EEO/AA). This book includes a broad scope of information on EEO/AA from its infancy and progresses through its rapidly changing and developing stages. Indeed, this book will be an invaluable asset in easily acquiring and supplementing one's basic knowledge as well as providing a general overview of the subject area.

Industrialisation, Employment and Income Distribution

A Case Study of Hong Kong

Ronald Hsia and Laurence Chau

Series: Routledge Library Editions: Employment and Unemployment

First published in 1978. Beginning with a comprehensive evaluation of the effects of the various characteristics of employment and the labour force on household income distribution, this study assesses the impact of Hong Kong's industrialisation and employment growth on its income distribution. Through an analysis of the changes in industrial and occupational structures, employment status, household size, labour participation rate, inflow of labour and wage and employment structures, it considers not only how income distribution alters with economic development, but also the mechanism that has brought about these changes.

Inequality in the Workplace

Underemployment among Mexicans, African Americans, and Whites

José M. Soltero

Series: Routledge Library Editions: Employment and Unemployment

First published in 1995. During the late 1980s and early 1990s the American economy again became immersed in a recession. The study of labor force stratification can illuminate ways in which the American working class is segmented, as well as the relation to other social problems like poverty and delinquency.

In this book, the author explores underemployment, an arguably more accurate measure of labor force hardship than unemployment, amongst several demographic groups. This study will be of interest to students of both economics and sociology.

The Economics of Unemployment Insurance

Mark M. Hauser and Paul Burrows

Series: Routledge Library Editions: Employment and Unemployment

First published in 1969. This book analyses the role of Unemployment Insurance in a high-employment economy. It emphasises the social requirements of an income-maintenance scheme in the context of various economic policies, particularly government intervention in the labour market. The authors discuss other related problems including the relationship between Unemployment Insurance and redundancy compensation and the question of selectivity in social security.

The Impact of Trade on United States Employment

Catherine Sveikauskas

Series: Routledge Library Editions: Employment and Unemployment

First published in 1995. Over the last several decades there has been much concern that international trade has been destroying "good" jobs in the United States. This book provides a thorough empirical examination of this issue, focussing on the years when large, continuous deficits began. The analysis examines occupational employment data for 118 occupations in 156 different industries, and will be of interest to both students of business and economics and policy makers.

The Road to Full Employment

Edited by Sean Glynn and Alan Booth

Series: *Routledge Library Editions: Employment and Unemployment*

First published in 1987. This volume explores the inter-war unemployment problem and the development of economic and social policy in relation to that problem. This book is written by a group of expert historians and policy analysts who have been in the forefront of recent research. In particular, new insights into economic policy which have come from the release of cabinet and departmental papers at The Public Record Office are revealed. This work will be essential reading for students of modern British history and economic and social history as well as economic policy and government and politics.

Unemployment

An Economic Analysis

K. G. Knight, University of Warwick, Coventry, UK

Series: *Routledge Library Editions: Employment and Unemployment*

First published in 1987. Unemployment is currently the major economic concern in developed economies. This book provides a comprehensive analysis of the economics of unemployment. It concentrates on theories of the labour market and examines the critical inter-relationships with the rest of the economy. It provides a thorough evaluation of theory and extensive consideration of the relevant empirical evidence. It emphasises the multi-causal nature of unemployment and concludes that policy-makers should respond with a multi-faceted mix of policies.

Unemployment

The European Perspective

Edited by Angus Maddison and Bote S. Wilpstra

Series: *Routledge Library Editions: Employment and Unemployment*

First published in 1982. Unemployment was a major scourge of the advanced capitalist countries in the 1930s, but in the golden age of post-war expansion which lasted until 1973, it had seemingly been vanquished by enlightened economic policy. Since 1973, unemployment has re-emerged as a major problem, along with accelerated inflation and problems of structural adjustment imposed by soaring energy prices.

The present volume contains three comparative papers on the employment policy discussions in Germany, the Netherlands

and the UK as well as papers examining the theoretical adequacy of Keynesian, monetarist, structuralist and Marxist reactions to the new issues.

Unemployment, Schooling and Training in Developing Countries

Tanzania, Egypt, the Philippines and Indonesia

Edited by M. D. Leonor

Series: *Routledge Library Editions: Employment and Unemployment*

First published in 1985. Increasing doubt is being shed on the proposition that higher levels of education in developing countries are an unmitigated good. Unemployment among school leavers and university graduates is now a major problem. Some people argue that what is needed is a reform of primary education and the changing of attitudes to work; but many of the measures adopted have failed to achieve these goals and have only worsened the problem by increasing costs, making curricula less flexible and by increasing 'mis-education'. This book examines the problems and the measures adopted to alleviate them in four important developing countries.

A Dictionary of Hinduism

Its Mythology, Folklore and Development 1500 B.C.-A.D. 1500

Margaret and James Stutley

Series: *Routledge Library Editions: Hinduism*

'Hinduism' is a term often used to summarize the aspirations of the majority of the Indian people. But any simple definition of it is difficult, if not impossible. This is partly owing to the nuances of the Sanskrit language, in which many texts are written, and partly to the too literal interpretation of Hindu imagery and mythology that often veils its real significance. This book, first published in 1977, is an essential reference source that goes some way to clarifying the difficulties of understanding Hinduism.

Christian and Hindu Ethics

Shivesh Chandra Thakur

Series: Routledge Library Editions: Hinduism

Hinduism and Christianity are different in structure and approach – but have a great deal in common in matters relating to ethics. This book, first published in 1969, is the first systematic and detailed work which attempts to bring out both the differences and similarities. The author selects some of the fundamental problems of philosophical ethics, such as the moral law – its authority and sources, moral effort and human freedom, moral failure and responsibility – and explores the respective answers of Hinduism and Christianity.

Man in Search of Immortality

Testimonials from the Hindu Scriptures

Swami Nikhilananda

Series: Routledge Library Editions: Hinduism

This book, first published in 1968, comprises five articles on the immortality of the soul. According to Hindu tradition this immortality cannot be proved by the scientific method of reasoning – it is based upon scriptural evidence and on the direct experience of enlightened souls. These articles examine the Hindu tradition and provide reasoned support to the scriptures and experiences.

Hindu World

An Encyclopedic Survey of Hinduism. In Two Volumes. Volume I A-L

Benjamin Walker

Series: Routledge Library Editions: Hinduism

This work, first published in 1968, presents the fabulous world of Hinduism in its entirety in two volumes. It is the first general encyclopedia of Hinduism covering every major aspect of Hindu life and thought. It contains over 700 articles, each of which gives a comprehensive account of the subject, and by a system of cross references interlinks all topics related to it, so that a single theme may be traced in all its ramifications through the whole book. An index of over 8,000 items, which in itself forms a veritable treasury of Sanskrit terms and names, will further assist the researcher finding their way among the lesser topics treated in the work.

The Illustrated Dictionary of Hindu Iconography

Margaret Stutley

Series: Routledge Library Editions: Hinduism

Indian art, increasingly popular in the west, cannot be fully appreciated without some knowledge of the religious and philosophical background. This book, first published in 1985, covers all aspects of Hindu iconography, and explains that its roots lie far back in the style of prehistoric art. The dictionary demonstrates the rich profusion of cults, divinities, symbols, sects and philosophical views encompassed by the Hindu religious tradition.

The Loves of Krishna

In Indian Painting and Poetry

W.G. Archer

Series: Routledge Library Editions: Hinduism

This book, first published in 1957, was the first in English to provide a full and clear introduction to one of the most significant of Indian gods, and stresses his supreme role in Indian religion and art. The book relates the full Krishna story, explaining his role in Indian religion, and traces the history of Krishna in Indian painting. There are 39 plates of Indian pictures, each accompanied by a commentary by the author, revealing a wealth of subtle and poetic detail.

The Spiritual Heritage of India

Swami Prabhavananda

Series: Routledge Library Editions: Hinduism

This book, first published in 1962, is an analysis of the history of the philosophy of a country that has never distinguished philosophy from religion. Indian philosophy is not merely metaphysical speculation, but has its foundation in immediate perception. This insistence upon immediate perception rather than abstract reasoning is what distinguishes the Indian philosophy of religion from philosophy as Western nations know it.

A History of Medicine

Arturo Castiglioni

Series: Routledge Library Editions: History of Medicine

Originally published in 1941, *A History of Medicine* provides a comprehensive guide to the advancement of medicine, from Ancient Egypt, and Ancient Babylonia, all the way up to the 20th century. The book looks at the close relationship between the progress of medicine and its advancement of civilization, it covers the development of medicine from, old magical rites, religious creeds, classical Hippocratism and revolutionary discoveries, while looking at the associated economic, intellectual, and political conditions of life in different nations, during different times. The book provides an essential and detailed look at the rich history of medicine and how it has

impacted society.

An Introduction to the History of Medicine

From the Time of the Pharaohs to the End of the XVIIIth Century

Charles Greene Cumston

Series: Routledge Library Editions: History of Medicine

Originally published in 1926, *An Introduction to the History of Medicine* is a compilation of reliable and essential contributions to the subject of the history of medicine. The book looks at the evolution of medicine from Ancient Egypt, to 16th century, and examines the work of Hippocrates and Galen. The book also examines the philosophy that began around the practice of medicine, as well as early discussions of ethics. It also looks at early medicine through the lens of religion, covering the practices of medicine in Hindu, Chaldean and Islamic religions. The book provides a broad coverage of early medicine in ancient civilizations, focusing particularly on Ancient Greece, Persia and

Rome.

Doctors, Bureaucrats, and Public Health in France

1888-1902

Martha L. Hildreth

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1987 *Doctors, Bureaucrats and Public Health in France* focuses on crucial period of 1888-1902, arguably considered the creation of the modern medical system in France. Scientific developments, demographic and political concerns sparked unprecedented period of government action concerning medical care. The nature of the resulting legislation was largely determined by a new medical union movement, promoting the professional goals of private physicians. The book focuses on the formation of the physicians Union movement and its role within medical legislation, as well as its effect on other public health programs.

Medical Theory, Surgical Practice

Studies in the History of Surgery

Edited by Christopher Lawrence

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1992, *Medical Theory, Surgical Practice* examines medical and surgical concepts of disease and their relation to the practice of surgery, in particular historical settings. It emphasises that understanding concepts of disease does not just include recounting explicit accounts of disease given by medical men. The contributors illustrate how surgery rose from a relatively humble place in seventeenth century life to being seen as one of the great achievements of late Victorian culture. They examine how medical theory and surgical practices relate to social contexts.

Medical Journals and Medical Knowledge

Historical Essays

Edited by William F. Bynum, Stephen Lock and Roy Porter

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1992 *Medical Journals and Medical Knowledge* examines both broad developments in print and media and the practice of particular journals such as the *British Medical Journal*. The book is the first study to address these questions and to examine the impact of regular news on the making of the medical community. The book considers the rise of the medical press, and looks at how it recorded and described principal developments and so promoted medical science and enhanced medical consciousness.

Medicine at the Courts of Europe

1500-1837

Edited by Vivian Nutton, University College London, UK

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1990, *Medicine at the Courts of Europe 1500-1837* is a collection of essays examining the whole range of medical activities in a variety of European courts. It documents the diverse influences of custom, wealth, religion and royal intervention, along with foreign innovation, popular literary satire and matters of litigation which so changed the face of court medicine over three centuries. By looking at court medical practitioners in such a wide chronological, geographic and thematic context, these essays provide many new insights for all those interested in the history of medicine, society and politics from the sixteenth century to the early nineteenth century.

Medical Obituaries

American Physicians' Biographical Notices in Selected Medical Journals before 1907

Lisabeth M. Holloway, Ernest N. Feind and George N. Holloway

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1981, and then again in 1995, *Medical Obituaries* is an extensive index begun in the 1960s cataloguing biographical data for American physicians from the 18th and 19th century. The book is an extensive index of American physicians and surgeons and contains an extensive list of sources to the medical obituaries of medical professionals from this period. It also provides a list of graduating classes at the American Medical Colleges before 1907.

Nobel Laureates in Medicine or Physiology

A Biographical Dictionary

Edited by Daniel M. Fox, Marcia Meldrum and Ira Rezak

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1990, *Nobel Laureates in Medicine or Physiology* is a biographical reference work about the recipients of Nobel Prizes in Medicine or Physiology from 1901-1989. Each article is written by an accomplished historian of medicine or science. The book is designed to be accessible to students and general readers as well as to specialists in medical science and history. Each article combines personal and scientific biography, and each has an extensive bibliography to guide further reading and research.

The Making of Man-Midwifery

Childbirth in England, 1660-1770

Adrian Wilson

Series: *Routledge Library Editions: History of Medicine*

Originally published 1995 *The Making of Man-Midwifery* looks at how the eighteenth century witnessed a revolution in childbirth practices. By the last quarter of the century increasing numbers of babies were being delivered by men – a dramatic shift from the women-only ritual that had been standard throughout Western history. The book explains this transformation in medical practice and shift in gender relations. By tracing the actual development and transmission of the new midwifery skills through the period, the book addresses both technological and feminist arguments of the period.

Problems and Methods in the History of Medicine

Edited by Roy Porter and Andrew Wear

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1987, *Problems and Methods in the History of Medicine* is a collection of papers surveying and assessing the particular approaches and techniques which have been used in the history of medicine in the past or are still being developed (from the influence of *Annales* to the role of the computer). The emphasis is on historical practice rather than methodology in isolation. Besides the topics indicated above, a third problematic is that of historical demography. A common theme to all three groups of paper is the relation between quantitative 'hard' data and qualitative 'soft' data.

The Rise of the Medical Profession

A Study of Collective Social Mobility

Noel Parry and José Parry

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1976 *The Rise of the Medical Profession* combines a sociological and historical approach to the rise of the medical profession in England. Sociologically it offers a theoretical framework which for the first time links the study of social mobility and professionalism with the theory of stratification. Historically, it examines the movement which led to the unification of the medical profession arising from effective social organisation among the surgeon-apothecaries in the early nineteenth century. It demonstrates that through the successful pursuit of the occupational strategy of professionalism the doctors have been able to raise income and status in the

community.

The History of Pharmacy

A Selected Annotated Bibliography

Edited by Gregory Higby and Elaine C. Stroud

Series: *Routledge Library Editions: History of Medicine*

Originally published in 1995, *The History of Pharmacy* is a critical bibliography of selected information on the history of pharmacy. The book is designed to guide students and academics through the history of science and technology. Topics range from medicine, chemical technology and the economics and business of pharmacy to pharmacy's influence in the arts. The bibliography includes an exhaustive selection of primary and secondary sources and is arranged chronologically. This book will be of interest to those researching in the area of the history of science and technology and will appeal to students and academic researchers alike.

The Scientific Revolution in Victorian Medicine

A.J. Youngson

Series: *Routledge Library Editions: History of Medicine*

Originally published 1979 *The Scientific Revolution in Victorian Medicine* looks at the great many factors which interacted in delaying the introduction of anesthesia and 'germ' theory to Victorian surgery. The almost wholly unscientific nature of British medical education and practice before 1860 or 1870 had a large impact on progression, as well as genuine disadvantages in the new methods of medical practice. Personal animosities and failure to face the facts, and fear of the unknowable consequences of change also played a significant part in the advancement of surgery in the Victorian period.

A History (From Ancient Greece to Gay Liberation)

Vern L. Bullough

Series: Routledge Library Editions: History of Sexuality

Originally published in 1979. This is at once a look at the realities of homosexuality in history and an examination of the myths that have grown up around it. The record of practices and prejudices moves from biblical and classical through early and medieval Christian, Renaissance, and Victorian times, to our own era of dramatic changes. It looks at prominent figures who were homosexuals, the theories that have flourished and faded, the differing attitudes toward male and female homosexuality, persecution, and contemporary changes. This classic work is a fascinating historical perspective of all the factors that have shaped and changed our attitudes from ancient times to the

present.

A Research Guide

Edited by **Joyce E. Salisbury**, professor emeritus of history at the University of Wisconsin-Green Bay

Series: Routledge Library Editions: History of Sexuality

Originally published in 1990. Well-annotated bibliographical entries cover works on history, religion, medicine, philosophy, law and literature in western Europe from about the third century A.D. through the end of the medieval period. The primary sources are organised thematically, and separately from secondary sources. Languages covered include English, Spanish, Portuguese, French, German, Italian, and Latin. The focus is on sexuality and sexual attitudes, not on the related topics of marriage and family. Detailed indexes are also included.

New Ideas on the Family, Divorce, and Homosexuality: An Essay on Moral Change

Antony Copley

Series: Routledge Library Editions: History of Sexuality

Originally published in 1989. This is the first history of modern France to explore the long-term origins of the libertarian revolt. It traces the moral history from the eighteenth century to the 1960s, examining the questions of divorce, homosexuality and sexual morality. The result is an enlightening and provocative account which will be of interest to students of modern French history and the history of sexual morality.

A History of Sexual Attitudes

Vern L. Bullough and Bonnie Bullough

Series: Routledge Library Editions: History of Sexuality

Originally published in 1977. For centuries myth, misinformation and taboo have distorted our vision of our sexual nature. This book examines such cultural phenomena: from Greek dualistic thought to Buddhist philosophy; from the attempt of early Christian sects to promote total chastity to homosexual practices among the Arabs. It explains Victorian theories about masturbation and madness, sexist dogmas limiting feminine potential, social attitudes towards abortion over time, and much more. Extensively researched, this fascinating classic work is a comprehensive summary of our knowledge of past sexual attitudes as well as an appraisal of the causes and direction of

sexual revolution.

The Sexuality Papers

Male Sexuality and the Social Control of Women

Lal Coveney, Margaret Jackson, Sheila Jeffreys, University of Melbourne, Australia, Leslie Kay and Pat Mahony

Series: *Routledge Library Editions: History of Sexuality*

Originally published in 1984. The history of sex in the last 100 years has usually been written as a story of progress from repression to sexual liberation. This book argues that the reverse is true, demonstrating that the 'sexual revolution' came as a backlash to a women's movement which challenged men's sexual abuse and tried to reconstruct male sexuality in women's interest. At first it looks at those groups at the turn of the twentieth century who campaigned to challenge prevailing ideas about sexual behaviour. It moves on to review the work of the most influential sexologists Ellis, Kinsey, Masters and

Johnson, and then presents a critical analysis of the sex magazine *Forum*.

Wanton Wenches and Wayward Wives

Peasants and Illicit Sex in Early Seventeenth Century England

G. R. Quaipe

Series: *Routledge Library Editions: History of Sexuality*

Originally published in 1979. This detailed study of illicit sex amongst the peasantry of Somerset between 1601 and 1660 based on the depositions presented to the courts during this period sheds as much light on prevailing village attitudes as on the specific discussion matter. Outlining the existence of the peasant and the supervision of sexual morality, the book looks at pre-marital sex, prostitution, masturbation, contraception, rape, homosexuality and incest along with the prevailing punishments of the time. Combining both demographic and literary-based analyses, with analytical and anecdotal approaches to the subject, this book presents a rich source of social history.

Exploring Sport and Leisure Disasters

A Socio-Legal Perspective

Hazel J. Hartley

Series: *Routledge Library Editions: Leisure Studies*

First published in 2001. This book provides a socio-legal analysis of disasters by setting out two sport and leisure disasters (the 1989 Hillsborough and Marchioness disasters) and considering them in their broader legal/political/economic and policy contexts. It bases the analysis on in-depth examinations of the legal responses to these disasters. Students in sport and leisure courses will be required to tackle legal and ethical issues. Law modules and courses in sport and law are developing an increasingly socio-legal, if not multi-disciplinary approach. This book takes account of this, taking a critical, multi-disciplinary approach to sport, leisure and the law.

Freedom and Constraint

The Paradoxes of Leisure

Edited by Fred Coalter

Series: *Routledge Library Editions: Leisure Studies*

First published in 1989. In the climate of long-term unemployment, early retirement, and technology that is seen to threaten jobs, 'leisure' has been presented as the solution to a multitude of social problems. The essays in this collection represent the most important arguments on the problems, myths, and misunderstandings of leisure. Arguing from a range of positions, some sceptical, others more idealistic, they look at the complexities of this field and the social and political problems that surround it.

Freedom to Be

A New Sociology of Leisure

John R. Kelly

Series: *Routledge Library Editions: Leisure Studies*

First published in 1987. Following an introductory chapter on the nature of theory and the outline of the book, there are eight chapters on the explanatory approaches, or models, employed in this dialectical analysis of the leisure industry. These models focus on particular elements of leisure: experience, decision, development, identities, interaction, institutions, political forces, and human definitions. With a new preface to the re-issue by the author, this title will be of great interest to students of Sociology and Leisure Studies.

Land and Leisure

Concepts and Methods in Outdoor Recreation

Edited by Carlton S. Van Doren, George B. Priddle and John E. Lewis

Series: *Routledge Library Editions: Leisure Studies*

First published in 1974. *Land and Leisure* introduces the student to all aspects of recreational land use – spatial, economic, behavioural and physical. The book is divided into five parts with discussions ranging over topics such as the individual's recreational needs, recreational land-use evaluation, regional planning and the problems of decision-making and the provision of recreational resources. Its interdisciplinary approach will enable students to understand the problems, concepts, methods and approaches helpful in furthering and integrating their

knowledge of recreational resources.

Leisure Identities and Interactions

John R. Kelly

Series: *Routledge Library Editions: Leisure Studies*

First published in 1983. Leisure has too often been approached as a set of activities that people do when everything important has been completed. This text provides a different analysis demonstrating the centrality of leisure to human development and to important relationships.

In *Leisure Identities and Interactions* the author analyses leisure in the context of role changes through the life course, but also as a social context in which we work out the identities that express who we really want to be. His focus is on the kinds of leisure that are both most common and most significant

face-to-face encounters, family interaction, and episodes found in the midst of our roles and routines.

Leisure and the Family Life Cycle

Rhona Rapoport, Robert N. Rapoport and Ziona Strelitz

Series: *Routledge Library Editions: Leisure Studies*

This volume, first published in 1975 with a new introduction by Ziona Strelitz, marked a pioneering contribution to family and leisure studies. The study includes empirical material collected in the form of biographical case studies. The case studies are not only rich in detail and well presented, but they provide a meaning of leisure within the pattern of life of the individuals studied. This book will be of great interest to students of leisure and family studies.

Politics and Leisure

John Wilson

Series: *Routledge Library Editions: Leisure Studies*

First published in 1988. This book provides a lucid and exceptionally well-informed account at the controversial relationship between politics and leisure.

The importance of the relationship between political forces and leisure, in subjects as disparate as the future of the Olympic games and the future of full employment, has rarely been so evident. John Wilson has provided an excellent guide to its intricacies.

Leisure and the Future

A. J. Veal

Series: *Routledge Library Editions: Leisure Studies*

First published in 1987. In the context of the debate about the changing structure of modern economies, the growth of leisure, and the place of work and leisure in society, this book reviews the 'state of the art' of leisure forecasting and the study of leisure futures. Contemporary issues such as attitudes towards work and leisure, the 'work ethic', education for leisure and measures to share scarce jobs and increase leisure time are discussed in an objective and comprehensive manner. This book will be of value to students of leisure studies, recreation studies and public policy.

The Problem of Leisure

Henry Durant

Series: *Routledge Library Editions: Leisure Studies*

First published in 1938. This study examines various aspects of leisure in the early twentieth century. The author observes the differences in leisure between the various echelons of society, as well as the differences of leisure amongst children and adults. Durant also explores in depth several modes of leisure, including the cinema, sport, and gambling. This title will be of interest to students of history, sociology, and leisure studies.

Understanding Leisure

Les Haywood, Frank Kew, Peter Bramham, John Spink, John Capenerhurst and Ian Henry, Loughborough University, Leicestershire, UK

Series: *Routledge Library Editions: Leisure Studies*

First published in 1989. *Understanding Leisure* is a readable introductory analysis of the key elements in the study of leisure. This includes leisure concepts and dimensions of leisure, its activity forms, participants, provision, and leisure futures, leisure and social theory. A collaborative work of six authors, *Understanding Leisure* is a textbook which introduces the reader to the interrelated dimensions of leisure in contemporary society and aims to provide them with guidelines for further study.

Young People and Leisure

John Leigh

Series: *Routledge Library Editions: Leisure Studies*

First published in 1971. The purpose of this study is to examine the relationship which exists between the education services and the leisure time of the people they attempt to serve. The author explores education and provision for leisure and the problems of schools, youth services and adult education in relation to this. The case study of the leisure lives of young adults in a small industrial village provides some illustration of the difficulties of providing for leisure in non-urban areas. This title will be of great interest to policy-makers and to students of Sociology and Leisure Studies.

Youth and Leisure

Kenneth Roberts

Series: *Routledge Library Editions: Leisure Studies*

First published in 1983. In the 1980s, as they are today, young people were remaining longer in education, and were leaving better qualified, if only to face unemployment rather than real jobs and progressive careers. Traditional gender divisions and roles are being challenged. In this study, Kenneth Roberts uses evidence from youth and leisure research to examine the ways that young people were responding to these trends. His book combines theories of adolescence, of the role and growth of leisure, and of the sources and consequences of post-war youth cultures.

10 Volume Set

Routledge Library Editions: Metaphysics

Various

Series: *Routledge Library Editions: Metaphysics*

Reissuing works originally published between 1937 and 1992, this collection of original texts addresses the philosophical realm of metaphysics, not only ontology but the philosophy of science, religion and morals. The theory of values and the theory of absolutes are the subject of more than one volume, while others take a broader spectrum and outlay the history of the philosophical arguments. The nature of objects and questions of being and identity are addressed from very different perspectives. With some volumes by very eminent thinkers, this is a great addition to any collection on philosophy.

An Introduction to Metaphysics

C. H. Whiteley

Series: *Routledge Library Editions: Metaphysics*

Originally published in 1950. For those interested in the fundamental problems of philosophy but not familiar with its technicalities, this book introduces the main type of theory in metaphysics, not by a catalogue of philosophers' opinions but by a continuous train of reasoning. The central theme is the problem of the relation between Mind and Matter, and in the course of the argument there are discussions of mechanistic materialism, of idealism and our knowledge of the external world, and of the arguments for the existence of God. The problems are presented lucidly but without over-simplification.

Ascent to the Absolute

Metaphysical Papers and Lectures

J. N. Findlay

Series: *Routledge Library Editions: Metaphysics*

Originally published in 1970. This book is a collection of lectures and papers given by Professor Findlay in the 1960s. The theme is an argument for a metaphysical Absolute, in the sense of post-Hegelian Idealism. Findlay's word for the Absolute process is 'Enterprise', which must be necessary in thought and reality. This ontological argument goes further than previous cosmological arguments and addresses both traditions from ancient philosophy and the modern Anglo-American school of philosophy. The book discusses the case for a Perfect Being, a Necessary Being and, in a change to Findlay's previous published thought, presents a case for mysticism.

Events: A Metaphysical Study

Lawrence Brian Lombard

Series: Routledge Library Editions: Metaphysics

Originally published in 1986. The theory of events presented is one that construes events to be concrete particulars; and it embodies an attempt to take seriously the idea that events are the changes that objects undergo when they change. The theory is about what an event really is, about when events are identical, about what properties events have essentially, and about what relations events bear to entities of other kinds. In addition, this book contains an account of what philosophers are up to when they provide reasons for thinking that objects belonging to metaphysically interesting kinds exist and the role of criteria of identity in such reasons.

Metaphysics

William H. Walsh

Series: Routledge Library Editions: Metaphysics

Originally published in 1963. An outline of the metaphysical positions held by such major philosophers as Plato, Aristotle, Descartes, Hegel, Kant, Hume, Moore, Bradley, Wittgenstein. The author maintains – controversially – that metaphysical arguments have a close bearing on religious and moral beliefs.

Methods of Metaphysics

Alan White

Series: Routledge Library Editions: Metaphysics

Originally published in 1987. This book comprises a critical exposition of the thoughts on metaphysics of the major philosophers of the tradition. It introduces the ideas of these philosophers to students but is of interest to teachers as well. The author begins with a survey of the metaphysical writings of Plato, Aristotle, Berkeley, Leibniz and Bradley, clarifying throughout the relation of their methods and results to those of science. He follows this with a careful study of the critical attitudes to metaphysics espoused by Kant, Wittgenstein and the Logical Positivists. In the final section he scrutinizes the attempts by Collingwood, Wisdom and Lazerowitz to rehabilitate

metaphysics.

Reality and Value

An Introduction to Metaphysics and an Essay on the Theory of Value

Arthur Campbell Garnett

Series: Routledge Library Editions: Metaphysics

Originally published in 1937. This book addresses the importance of a theory of values that rests on a general metaphysical understanding founded on a comprehensive view of all aspects of the world. The author speaks against the absolutist theories with a realistic one encompassing a theory of space and time and considering value as an object of immediate intuition. These great philosophical questions feed into discussions of the philosophy of religion and of science. Garnett contends that our knowledge of mind is as direct and reliable as our knowledge of the physical world. This is an important early book by an influential 20th Century thinker.

The Approach to Metaphysics

E. W. F. Tomlin

Series: Routledge Library Editions: Metaphysics

Originally published in 1947. This book brings the reader a first-principles review of the purpose of philosophical enquiries in relation to modern life. It presents the importance of the history of the development of philosophical thought, beginning with perception. Significant theories and refinements are identified, in particular conceptualism and its development from the Greeks through to modern realism. Part 2 examines the apparent dichotomy between metaphysics and scientific method, while Part 3 moves on to the attacks on Scepticism and Kant's responses before discussing the works of Hegel. Part 4 is about developments in Positivism and the theories of Alexander

and Whitehead.

The Existence of the World

An Introduction to Ontology

Reinhardt Grossman

Series: Routledge Library Editions: Metaphysics

Originally published in 1992. The history of Western philosophy can be seen as a battle between those that insist that the "physical universe" exists and those would claim that there is a much larger "world" which contains atemporal and nonspatial things as well. The central part of this book, and the battle, concerns the existence of universals. Starting with the mediaeval definition of the issue found in Porphyry and Boethius, the author then considers modern and contemporary versions of the battle. He concludes that what is at stake between naturalists and ontologists is the existence and nature of a number of important categories, like structures, relations, sets, numbers and so on.

The Nature of Things

Anthony M. Quinton

Series: *Routledge Library Editions: Metaphysics*

Originally published in 1973. In this systematic treatise, Anthony Quinton examines the concept of substance, a philosophical refinement of the everyday notion of a thing. Four distinct, but not unconnected, problems about substance are identified: what accounts for the individuality of a thing; what confers identity on a thing; what is the relation between a thing and its appearances; and what kind of thing is fundamental? The author argues that theoretical entities and mental states are, in fact, material. He gives a linguistic account of universals and necessary truths and advances a naturalistic theory of value.

9 Volume Set

Routledge Library Editions: Milton

Various

Series: *Routledge Library Editions: Milton*

This set of 9 volumes, originally published between 1965 and 1991, amalgamates a wide breadth of research on John Milton, with a particular focus on his epic poem *Paradise Lost*. This collection of books from some of the leading scholars in the field provides a comprehensive overview of how Milton criticism has evolved over time, and will be of particular interest to students of English Literature.

A Concordance to the Poetical Works of John Milton

John Bradshaw

Series: *Routledge Library Editions: Milton*

First published in 1894. This *Concordance to the Poetical Works of John Milton* includes all of Milton's poems, excluding the Psalms and the Translations in the prose works; and all of the words are given with the exception of some of the pronouns, conjunctions, adverbs and prepositions; but any of these used peculiarly are given. It is hoped that the work will be found useful not only by the student of Milton but by the grammarian and the philologist.

Milton and Free Will

An Essay in Criticism and Philosophy

William Myers

Series: *Routledge Library Editions: Milton*

First published in 1987. *Milton and Free Will* is an incisive, ambitious and comprehensive analysis and defence of the concept of free will, using Milton as an example and exemplar. Written with passion, and out of a lifelong engagement with the poetry of Milton and the philosophical and theological problems it encompasses, the book will illuminate both Milton studies and philosophical debate.

Milton's Creation

A Guide through Paradise Lost

Harry Blamires

Series: *Routledge Library Editions: Milton*

First published in 1971. The intention of *Milton's Creation* is to provide the student with a simple and direct entry into *Paradise Lost*. The author is not concerned with taking sides in critical controversy. His aim is to elucidate Milton's primary meanings; this is a work of exegesis, not of interpretation.

In this new book, on arguably the greatest epic in the English language, the central substance of Milton's 'great Argument' is articulated with great clarity. By keeping in mind the epic status and universality common to *Paradise Lost* and *Ulysses*, the author introduces a post-Joycean perspective into his vision of Milton's

Creation.

Paradise Lost

G. K. Hunter

Series: *Routledge Library Editions: Milton*

First published in 1980. Professor Hunter writes inevitably for an audience of literary students, but he invites them to consider *Paradise Lost* as a text that must be enjoyed before it can be explained. The power of Milton's art is traced through his rehandling of Homer and Virgil and in his daringly individual fidelity to scripture. Professor Hunter does not try to smooth away the contradictions inherent in Milton's ambition to write an English classical Christian epic. He rather stresses the contradictions as cues to a properly alert reading. And this is what the book aims at above all a response to *Paradise Lost* which is alert to poetry and unintimidated by scholarship.

Re-remembering Milton

Essays on the Texts and Traditions

Edited by Mary Nyquist and Margaret W. Ferguson

Series: *Routledge Library Editions: Milton*

First published in 1987. Passionately praised and equally passionately criticised by contemporary and later writers, the figure of Milton inherited by the twentieth century is by no means unified, despite the appearance of monumental unity his work sometimes acquires in the classroom and in academic criticism.

This collection of essays gathers together disparate and often conflicting representations of Milton as author and cultural figure. *Re-remembering Milton* includes work by established critics from both sides of the Atlantic. Together these contributors place

Milton and different Milton traditions firmly within the arenas of modern critical debate.

The Lofty Rhyme

A Study of Milton's Major Poetry

Balachandra Rajan

Series: *Routledge Library Editions: Milton*

First published in 1970. Few books on Milton have dealt with his poetry as a whole. The present study, a discussion of Milton's major poetry, seeks to examine each of the poems on its own distinctive grounds and also to delineate the pattern of continuity which the poems enter into and sustain. The author shows how each poem creates its own strategy of insight and demonstrates that together they explore and define a centre of recognition more fully than is possible with any single work.

The book makes full use of the results of Milton scholarship and will provide a basis for a fresh appreciation of the complexity

and unity of Milton's achievement.

Politics, Finance and the Role of Economics

An Essay on the Control of Public Enterprise

C. D. Foster

Series: Routledge Library Editions: Public Enterprise and Privatization

First published in 1971, when nationalized industries employed about 7 per cent of the labour force, created about 10 per cent of the GDP and had annual investment programmes equal to those of all private manufacturing put together. The author shows that the facts of ministerial and parliamentary control were very different from what the public and Parliament thought at the time. With no changes, the growth of public enterprise to achieve social purposes would mean an important decline in the power of Parliament and Ministers. This book explores solutions to this problem and concludes that the government must build up a cadre and capacity for financial control lacking to it at the time.

British Public Utilities and National Development

Marshall E. Dimock

Series: Routledge Library Editions: Public Enterprise and Privatization

One of the most important trends in post-war Britain was the extension of the number and variety of public service undertakings. Originally published in 1933, this title indicated the empirical nature and recent importance of British public utility development at the time, being the first study, which dealt with this trend in a comprehensive manner. For completeness to the book and also providing a suitable background, the local utility services water, gas, transport, docks, and harbors have been considered. This study was an effort to reunite economics, public administration, law, and philosophy in the consideration

of British public utilities.

Privatisation in Developing Countries

Edited by V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

Originally published in 1989, this book starts with an analysis on the concept, rationale and fundamental issues of privatisation, with reference to both developed and developing countries. There follows a critical scrutiny of the privatisation programmes of countries in Asia, Africa and Latin America, written by contributors actively concerned with public enterprise and privatisation at the time. It examines the role of international aid agencies, including the World Bank, in promoting the schemes and it details the positive impact of them as well as their pitfalls. These country accounts are complemented by a concluding chapter giving an overview of the substantial issues raised.

Economic Analysis and Public Enterprises

Ralph Turvey

Series: Routledge Library Editions: Public Enterprise and Privatization

Originally published in 1971, this is a rigorous analysis of the economic aspects of the efficiency of public enterprises at the time. The author first restates and extends the relevant parts of welfare economics, and then illustrates its application to particular cases, drawing on the work of the National Board for Prices and Incomes, of which he was Deputy Chairman. The analysis is developed stage by stage, with the emphasis on applicability and ease of comprehension, rather than on generality or mathematical elegance.

Privatisation in the UK

Edited by V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

The Conservative's privatisation programme was one of the most ambitious aspects of their attempt to redraft the political and economic map of the United Kingdom. Originally published in 1988, this book explores the processes of privatisation from a variety of standpoints. Its contributors include academics, enterprise executives and government officials. Fiscal, legal and social aspects of privatisation are explored but the book treats the subject as more than an immediate political issue and takes the opportunity to discuss the success – or otherwise – of public enterprise and to explore the implication of the UK experience for other countries which have an interest in privatisation.

Public and Private Enterprise

The Lindsay Memorial Lectures given at the University of Keele 1964

John Jewkes

Series: Routledge Library Editions: Public Enterprise and Privatization

Originally published in 1965, Professor Jewkes re-examines the principles which should determine the dividing line between the role of the State and the field of individual responsibility in economic life. The author's general conclusion is that, although mixed economics will undoubtedly continue to be the rule, yet stability and economic growth will be endangered unless our social and economic institutions are flexible enough to provide continuous, and as far as possible spontaneous, adjustments to the unpredictable changes of a world in constant transition.

Public Enterprise

Studies in Organisational Structure

Edited by V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

First published in 1986, this volume brings together papers on the organisational structure of select public enterprises from nine countries, developed and developing. They are set in different forms, work in different sectors and have diverse experiences, often on similar issues. The papers are written by top executives of the respective enterprises and, therefore, contain an authentic presentation of the problems and processes of organisation. The editor has included an analytical review on certain fundamental aspects of organisational structure, which has been conceived in wide terms.

Public Enterprise and Economic Development

A. H. Hanson

Series: Routledge Library Editions: Public Enterprise and Privatization

First published in 1959, the author's interest in public enterprise in underdeveloped countries was stimulated by a year in Turkey. He felt the time had come for a comparative study. Defining comparative as (1) between developed and underdeveloped countries, and (2) between different underdeveloped countries at dissimilar stages of development or with dissimilar development perspectives. The purpose of the first is to discover what the developed can offer the underdeveloped by way of adaptable experience and relevant ideas; the second to examine the use of public enterprise in the many different social, economic and political contexts to be found in the less advanced parts of the world.

Public Enterprise and Income Distribution

V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

How amenable is public enterprise to the implementation of national distributional policies? Originally published in 1988, the author examines the various channels through which distributional effects take place through their operations, and draws attention to the implicit conflicts of interest among consumers, workers, and tax payers. He focuses on the problems associated with the use of public enterprises as instruments of distributional goals and examines the question of whether direct budgetary measures on the part of government would be preferable. Here is a study of the way in which public enterprise may be employed as an instrument of redistribution of income and wealth.

Public Enterprise and the Developing World

Edited by V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

Originally published in 1984, this book grew out of the papers (and discussions) presented at the Seminar conducted at London Business School during March-June 1983, with a focus on the problems of public enterprise in the context of the developing world. Essentially, three facts of thought emerged: first, on the working of public enterprises in developing countries; second, on joint ventures and consultancies involving public enterprises in the two groups of countries; and third, on the value and relevance of experience of public enterprises in developed countries, particularly in the UK, for the developing countries.

Public Enterprise in Britain

Thoughts on Recent Experiences

V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

Originally published in 1959, the author has observed at first hand the workings of public enterprise in Britain. He has coupled objectivity with an acute sense of economic perception and has produced a clear and ordered study of the workings of nationalization in industry at the time. His book does not contain an argument on whether nationalization is desirable or not. On the assumption that there is nationalization he attempts to discuss certain important problems raised by it in the fields of management, pricing, resource allocation and public control. He hopes that a discussion of this nature will contribute towards ensuring the most satisfactory results from nationalization.

State Capital and Private Enterprise

The Case of the UK National Enterprise Board

Daniel C. Kramer

Series: Routledge Library Editions: Public Enterprise and Privatization

To what extent can governments supplement private venture capitalists and stimulate the economy by providing money to new entrepreneurs as well as existing enterprises? The UK's National Enterprise Board (NEB) attempted to do just this, and whilst it gained most publicity through its efforts to bail out ailing giants such as British Leyland and Rolls Royce Aerospace, much of its attention was actually directed to smaller ventures. Originally published in 1988 Professor Kramer reports that the NEB's record of success was surprisingly good, and that many flourishing undertakings would not be in business today had it not been for the NEB's efforts.

The Economics of Public Enterprise

V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

Public enterprises have played a central part in the development of all mixed economies in the post-war period, but they are now in a crisis phase. Privatisation has pushed back the level of public enterprise almost throughout the world. Where public enterprises remain, they are being brought under significant reforms. First published in 1991, this book presents a comprehensive critique of public enterprise, analysing why its performance has fallen far short of expectations. The book ends with some broad conclusions on the future of public enterprise. Throughout, the approach is analytical, but the arguments are supported by extensive examples from both developed and developing economies.

The Nature of Public Enterprise

Edited by V. V. Ramanadham

Series: Routledge Library Editions: Public Enterprise and Privatization

In both the developed world and the third world public enterprise has come to assume considerable importance in the structure and development of national economies. Originally published in 1984, this book, by an acknowledged international authority on public enterprise, explores this concept in both the major and the developing economies. He analyses how public enterprise functions and demonstrates how it may be integrated into both traditional Western mixed economies and third world economies with a much high level of state control.

10 Volume Set

Routledge Library Editions: Science and Technology in the Nineteenth Century

Various

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

This set of 10 volumes, originally published between 1900 and 1994, amalgamates a wide breadth of research on Science and Technology in the Nineteenth Century, including studies on notable figures such as Gregor Johann Mendel, Elizabeth Garrett Anderson and Sir Humphry Davy. This collection of books from some of the leading scholars in the field provides a

comprehensive overview of the subject how it has evolved over time, and will be of particular interest to students of history and the sciences.

American Engineers of the Nineteenth Century

A Biographical Index

Christine Roysdon and Linda A. Khatri

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

First published in 1978. This biography aims solve the problem of the lack of access to information regarding American engineers and technologists of the nineteenth-century, whilst also providing opportunities for scholars to study and assess the work of hitherto little known, potentially important figures. This title will be of interest to scholars and students of science and history.

Atoms and Elements

A Study of Theories of Matter in England in the Nineteenth Century

David M. Knight

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

First published in 1967. The impression is sometimes given that the Atomic Theory was revived in the early years of the nineteenth century by John Dalton, and that continuously from then on it has played a vital role in chemistry. The aim of this study is to revise this over-simplified picture.

Elizabeth Garrett Anderson

Jo Manton

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

First published in 1965. In 1865, a woman first obtained a legal qualification in this country as physician and surgeon. Elizabeth Garrett surprised public opinion by the calm obstinacy with which she fought for her own medical education and that of the young women who followed her.

This full biography is based largely on unpublished material from the hospitals and medical schools where Elizabeth Garrett Anderson worked, and the private papers of the Garrett and Anderson families. This title will be of great interest to history of science students.

English Men of Science

Their Nature and Nurture

Francis Galton

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

This edition first published in 1970. In this work, Francis Galton examined at great length the antecedents, environment, education and hereditary features of the most prominent men of science in order to establish certain laws relating to heredity. It is a landmark in the transition from introspective to objective methods in biological and psychological research, and the author's statistical, nonanecdotal approach was to prove immensely fruitful for the development of psychology.

As Professor Cowan points out in her introduction, historians as well as scientists intent upon a deeper understanding of the Victorian mind will find much of interest in this remarkable book.

Heinrich Rudolf Hertz (1857-1894)

A Collection of Articles and Addresses

Edited by Joseph F. Mulligan

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

This book, first available in 1994, was published to commemorate the one-hundredth anniversary of Heinrich Hertz's death at the terribly young age of thirty-six. The introductory biography together with eleven papers by Hertz and seven about him are intended to highlight the importance of Hertz's contributions to physics and at the same time to serve the needs of anyone interested in doing research on this highly gifted scientist.

Medical Fringe and Medical Orthodoxy 1750-1850

W. F. Bynum and Roy Porter

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

First published in 1987. Even as the professionalism of medicine progressed, many sufferers continued to rely on what would now be termed "fringe" practitioners – quacks, backstreet surgeons, bone-setters, Thomsonian botanists, holists and naturalists. Many types of fringe medicine were popular in particular circles or reflected the political or religious preoccupations of their practitioners. The essays collected in this volume all present new research on this fascinating and diverse period in the history of medicine.

The Mercurial Chemist

A Life of Sir Humphry Davy

Anne Treneer

Series: Routledge Library Editions: Science and Technology in the Nineteenth Century

First published in 1963. Humphry Davy, knighted by the Prince Regent in 1812 for his contributions to science, and later created baronet for his invention of the miners' safety lamp, was among the foremost European chemists in the early nineteenth century.

Anne Treneer tells in full the story of Humphry Davy's life. From letters, journals and memoirs of the time, Davy and his contemporaries come to life. This title will be of great interest to scientists and historians.

A House Divided

Protestantism, Schism and Secularization

Steve Bruce

Series: Routledge Library Editions: Sociology of Religion

The main concern of this study, first published in 1990, is the part played by Protestantism in the complex of social processes of 'secularization'. The book deals with the way in which Protestant schism and dissent paved the way for the rise of religious pluralism and toleration; and it also looks at the fragility of the two major responses to religious pluralism – the accommodation of liberal Protestantism and the sectarian rejection of the conservative alternative. It examines the affects of social, economic and political changes on religion in western Europe, and proposes that core Reformation ideas must be considered, particularly the repercussions of different beliefs

about authority.

Christiantown, USA

Richard Stellway

Series: Routledge Library Editions: Sociology of Religion

To accurately assess the influence of religion on the marriages of churchgoers, this book, first published in 1990, considers the significance of many important forces, including level of education, job satisfaction, income, sex life, patterns of decision making, coping strategies, and the demands of parenting. While most studies have been content to assess religion's impact by looking at church membership or church attendance, this book looks at several facets of religiosity in an effort to understand more clearly just how and when religion affects marriage quality and whether its impact is positive or negative.

Ecstasy and Holiness

Counter Culture and the Open Society

Frank Musgrove

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1974, argues that the counter culture is not the outcome of alienation, but of opportunity, being the result of a new generational consciousness, an openness which has characterised industrial societies of the West since the 1950s. Its roots lie in economic expansion and population movement and growth, the same factors that are cited in the decline of religiousness.

God's Blueprints

A Sociological Study of Three Utopian Sects

John McKelvie Whitworth

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1975, examines how utopian sects seek to establish and promulgate radically distinctive forms of society according to what they claim to be God's blueprint. Rooted in the sociology of religion and more particularly in the concepts of sectarianism and communitarianism, this study presents an analysis of three sects: the Shakers; the Oneida Community; and the Bruderhof. The author examines the origins, religious conceptions, social structure and composition, modes of social control, and development of each group; and in a concluding chapter he discusses the utopian sect as a distinctive social form.

Pray TV

Televangelism in America

Steve Bruce

Series: Routledge Library Editions: Sociology of Religion

In this book, first published in 1990, the significance of televangelism in America is examined in detail. This well-informed, measured analysis includes discussion of the place of televangelism in the history of American Protestantism; the styles of leading TV preachers and the televangelical star system; the relation of televangelism to conservatism and politics. It also answers the questions of televangelism's organisation and audience, as well as providing an analysis over the wave of scandals which swept over Pray TV in the 1980s.

Religion and Advanced Industrial Society

James A. Beckford

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1989, demonstrates that sociologists have much to gain from a strengthening of the connections between general theories about the changing character of modern western societies and specific studies of religion. It combines an exegesis of sociological classics in the study of religion, and a history of their influence upon the subject's development; a criticism of Talcott Parson's attempt to synthesise classical viewpoints into a single theory of modernity; a discussion of post-Parsonian theories of religion's declining importance; and an argument that some quasi-Marxist thinkers may offer fresh insights into the place of religion in capitalist

societies.

Religion and Social Class

The Disruption Years in Aberdeen

A. Allan MacLaren

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1974, shows how social class and origins in mid-nineteenth century Aberdeen were reflected in religious belief and observance, and how in turn this acted as a catalyst for change in society. The Disruption in the Church of Scotland is examined within the context of changes which had taken place in the form of industrial production, whereby the city as a centre of manufacturing had replaced the domestic production of the countryside. The concomitant changes in the social structure, and the divisions which resulted within the old ruling families, are probed. The social patterns of adherence to the Established and Free Churches are analysed in detail.

Religion and the Family

Youth and the Gang Instinct

Geoffrey Hoyland

Series: Routledge Library Editions: Sociology of Religion

The purpose of this book, first published in 1945, is to consider the problem of religion in its relation to the family. Even in 1945 there had been much talk regarding the break-up of family life and the weakening of parental control, and this book examines the role of religion in the social changes within the family unit.

Religion, Aging and Health

A Global Perspective: Compiled by the World Health Organization

Edited by **William M. Clements**

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1989, attempts to identify from within religious cultures those elements of tradition, behaviour and lifestyle that are health protective in that, by adhering to them, physical, mental and social wellbeing will be maintained as people grow old. It examines how different faith traditions view aging and its impact on health.

Sociology of Religion

Joachim Wach

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1947, presents the then-new subject of sociology of religion in systematic and historical theology and in the science of religion, in political theory and the social sciences, in philosophy and psychology, in philology and anthropology. Its intention is to bridge the gulf between the study of religion and the social sciences, an exercise that draws strongly upon cultural anthropology.

The Elementary Forms of the New Religious Life

Roy Wallis

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1984, examines the new religious movements which appeared in the 1960s and 1970s in the West. It develops a wide-ranging theory of these new religions which explains their major characteristics. The movements are classified under three ideal types, world-rejecting, world-affirming and world-accommodating, and from here is developed a theory of their origins, recruitment base, characteristics, and development patterns. The book offers a critical exploration of the theories of the new religions and analyses the issue of whether they reflect the process of secularisation, or are a countervailing trend marking the resurgence of religion in the West.

Social Science and the Cults

An Annotated Bibliography

John A. Saliba

Series: Routledge Library Editions: Sociology of Religion

This book, first published in 1990, brings together descriptive, comparative, and theoretical materials on cults and sects in Western culture, focusing on literature published since 1970. A historical section links the rise of the new movements to similar past phenomena in Western culture. Other sections examine the methodology of studying religious movements and the various theories which have been brought to explain them, current studies on traditional sects that are sometimes compared to the new religions, and many studies of individual contemporary cults.

The Religion of Ethnicity

Belief and Belonging in a Greek-American Community

Gary A. Kunkelman

Series: Routledge Library Editions: Sociology of Religion

The integrative role of religion is apparent in the Greek-American community; religion functions as a cement of the social fabric. Indeed, it would be hard to overestimate the role of Greek Orthodoxy in joining people of Greek ancestry into a community and reinforcing their sense of ethnic identity. The nature of ethnic identity and the church's role in fostering and sustaining it are subjects of this study, first published in 1990. In ultimately focusing on the interplay between church, community and individual, the book suggests that understanding the relation of these people to their church is to understand them as a people.

The Religious Roots of American Sociology

Cecil E. Greek

Series: *Routledge Library Editions: Sociology of Religion*

This book, first published in 1992, demonstrates that American sociology has deep religious roots which continue, both directly and indirectly, to influence the discipline today. Early American sociology was closely aligned with the social gospel movement in Protestantism, which hope to make use of the new science of sociology to help solve social problems and, ultimately, prepare America for the establishment of Christ's kingdom on earth. Although American sociology became secularized after 1920, it retained its ameliorative outlook, hoping to 'save' mankind through positivistic analysis and technocratic societal planning.

Voices from the Gods

Speaking with Tongues

David Christie-Murray

Series: *Routledge Library Editions: Sociology of Religion*

Glossolalia (paranormal speaking in tongues) and zenolalia (paranormal speaking in allegedly foreign languages) are features of many sub-cultures and religions. The most obvious example is Pentecostalism, where every believer in many denominations is expected to speak in tongues at least once – the gift in other cultures being limited to individuals, shamans and mediums. This book, first published in 1978, surveys the practice of 'speaking in tongues' in anthropology, Christianity and spiritualism, and provides an analysis of the psychological, theological and linguistic considerations of the phenomenon.

Violence and the Sacred in the Modern World

Edited by Mark Juergensmeyer

Series: *Routledge Library Editions: Sociology of Religion*

How is symbolic violence related to the real acts of religious violence around the modern world? The authors of this book, first published in 1992, explore this question with reference to some of the most volatile religious and political conflicts of the day: Hezbollah in Lebanon, Sikhs in India, militant Jewish groups in Israel, and Muslim movements from the Middle East to Indonesia. In addition to providing valuable insights into these important incidents, the authors – social scientists and historians of comparative religion – are responding to the theoretical issues articulated by René Girard in *Violence and the Sacred* (1977).

9 Volume Set

Routledge Library Editions: Women and Politics

Various

Series: *Routledge Library Editions: Women and Politics*

Routledge Library Editions: Women and Politics (9 Volume set) presents titles, originally published between 1981 and 1993. The set draws attention to the importance of women and how their presence and active involvement, in politics and related fields, during the twentieth century has been crucial throughout the world.

Virtuous Pagans

Unreligious People in America

Thomas H. Davenport

Series: *Routledge Library Editions: Sociology of Religion*

This book, first published in 1991, examines the unreligious of America. Most sociologists of religion viewed religious belief and behaviour as having strong positive function for individual well-being – with the implicit assumption that unreligious individuals would lack meaning in life. This book applies statistical approaches to modelling causality as it analyses a controversial topic in American sociology.

Access to Power

Cross-National Studies of Women and Elites

Edited by Cynthia Fuchs Epstein and Rose Laub Coser

Series: *Routledge Library Editions: Women and Politics*

Originally published in 1981, this book is composed of papers that describe and analyse women's careers in government, business, and the professions. It examines women's access to and participation in elite careers in the US, and in selected countries of western and eastern Europe, as well as in international organizations. This book was an outgrowth of a conference on 'Women in decision-making elites in cross-national perspective,' held at King's College, Cambridge University, in July 1976. The countries represented were chosen because, although they were at similar stages of economic development, they exhibited differences in political structure,

ideology, and tradition.

Belle Moskowitz

Feminine Politics and the Exercise of Power in the Age of Alfred E. Smith

Elisabeth Israels Perry

Series: *Routledge Library Editions: Women and Politics*

It is commonly believed that women's entry into the political realm is a recent phenomenon. First published in 1992, this title shatters that myth, restoring to history the career of a remarkable woman who achieved unprecedented influence and power in American politics many decades before the contemporary era. As political advisor to Alfred E. Smith, four-term governor of New York and presidential candidate, Moskowitz played a crucial role in both state and national politics throughout the 1920s. The author, her granddaughter, has thoroughly searched through private and public records to document her career, drawing as well on the reminiscences of

her daughter Miriam Israels Gabo.

Fabian Couples, Feminist Issues

Reva Pollack Greenburg

Series: *Routledge Library Editions: Women and Politics*

In the three decades before the First World War, the relationship between socialism and feminism was both curious and convoluted. In Britain, the uniquely middle-class, reform-minded Fabian Society might have been expected to bridge the gap between these movements. Yet, between 1884 and 1914, the Fabian Society's record on the "woman question" was highly inconsistent and, at times, overtly regressive. First published in 1987, this title looks at three of the most influential members, Sidney Webb, George Bernard Shaw and Hubert Bland and the women they were married to, who were also active in the Society, in a bid to understand the contradictions between their

views and life experiences.

Gender Politics and Post-Communism

Reflections from Eastern Europe and the Former Soviet Union

Edited by Nanette Funk and Magda Mueller

Series: *Routledge Library Editions: Women and Politics*

In the wake of communism's decline, women's concerns had become increasingly important in Eastern Europe and the former Soviet Union. Yet most discussions of post-communism changes had neglected women's experiences. Originally published in 1993, this title was the first collection of its kind, presenting original essays by women scholars, politicians, activists, and former dissidents from Eastern Europe and the former Soviet Union, along with essays by Western feminists and scholars. They discuss gender politics during the often turbulent transition and crises of post-communism, offering vivid accounts and analyses of the conditions facing women in each country.

The Politics of the Second Electorate

Women and Public Participation: Britain, USA, Canada, Australia, France, Spain, West Germany, Italy, Sweden, Finland, Eastern Europe, USSR, Japan

Edited by Joni Lovenduski and Jill Hills

Series: *Routledge Library Editions: Women and Politics*

Prior to publication there had been little study of the political role of women. Gender had been seen only as a background variable in social surveys of political behaviour, and women had rarely been extensively or separately considered. Now, in essays specially written for this volume, first published in 1981, the authors map out the political behaviour of women in twenty 'industrially developed' countries, bringing together and analysing contemporary material on a variety of topics, such as voting, standing for public office, entering the political elite, and engaging in political activity outside the formal structures of government.

Women and Peace

Theoretical, Historical and Practical Perspectives

Edited by Ruth Roach Pierson

Series: *Routledge Library Editions: Women and Politics*

Originally published in 1987, this book includes contributions from scholars and peace activists in the US, Britain, Canada, Belgium, and the German Democratic Republic. These papers present, from a number of different perspectives, the experiences of women in relation to peace in North America, Japan and Europe. The theoretical diversity and historical breadth of the collection provide a balanced and enlightened view of women and peace movements. The papers range from an important theoretical contribution by the American scholar Berenice Carroll to one on the peace movement in Japan after Hiroshima and Nagasaki by Setsuko Thurlow, a Japanese-Canadian and a

Hiroshima survivor.

Women and the State

The Shifting Boundaries of Public and Private

Edited by Anne Showstack Sassoon

Series: *Routledge Library Editions: Women and Politics*

In the late 1980s, despite the fact that the vast majority of women now had a dual role – in paid work and in the domestic realm – the world of work, the welfare state, and the domestic sphere were all still organized as though women's place were primarily in the home. In this title, originally published in 1987, articles from women around the world bring the issues sharply into focus. Applying fresh perspectives, they widen and enrich the debate. This book marks a powerful contribution to a new and more realistic assessment of women's dual role in the state and the economy which should be read by all those concerned with the development of women's issues and with women's studies.

Women in Foreign Policy

The Insiders

Nancy E. McGlen and Meredith Reid Sarkees

Series: Routledge Library Editions: Women and Politics

Originally published in 1993, this title provides a unique insight into the challenges faced by the women who shaped United States foreign policy at the time. The authors examine the "Gender Gap" in beliefs between men and women in the State and Defense departments. Highlighted by interviews with ten leading women in the field – including Jeane Kirkpatrick and Rozanne Ridgway, then the two highest ranking women in foreign policy – the book provides an intimate glimpse into the making of foreign policy during the Reagan administration.

Women, Power and Political Systems

Edited by Margherita Rendel

Series: Routledge Library Editions: Women and Politics

Originally published in 1981, this book shows that the family and the labour market are political institutions directly relevant to the distribution of power and to economic and social development. The studies in the book, which relate to widely different political systems and which cross disciplinary boundaries, all concentrate on the crucial activities of women. They serve to increase our understanding of the *political* implications of the family, of the sexual divisions of both domestic and wage labour and of the role of education in these inequalities at the time.
