

[Understanding Contract Law](#), 2<sup>nd</sup> Edition, by Richard Austen-Baker and Qi Zhou, provides an accessible, in-depth analysis of the purpose of contracting and the role of the law of contract, as well as theories that inform it. Assessing the historical development of this cornerstone of law, the book provides detailed analysis of some of the leading theoretical explanations, and how they are applied in jurisdictions throughout the world. Uniquely, the book is not limited to one jurisdiction, making this an essential text for students wishing to expand their knowledge of this fundamental area of law around the world.

[Unlocking the Law of Evidence](#), 4<sup>th</sup> Edition, by Charanjit Singh, is the latest new edition in the **Unlocking the Law Series**. The Unlocking books get straight to the point and offer clear and concise coverage of the law, broken down into bite-size sections with regular recaps to boost student confidence. They provide complete coverage of both core and popular optional law modules, presented in an innovative, visual format. This edition has been updated to include the most recent updates in case law and criminal and civil procedure as well as more practical pointers and practice tips to further aid putting knowledge into practice.

[Media & Entertainment Law](#), 5<sup>th</sup> Edition, by Ursula Smartt, combines comprehensive coverage with rigorous analysis of a key area of the law. The new edition has been brought up to date with expert insights into significant developments and judgments, including:

- the impact of changes in intellectual property law, data protection, GDPR and copyright law post Brexit – including the cases of Schrems II and Ed Sheeran;
- analysis of new case law and developments in privacy and freedom of the media – including Duchess of Sussex (Meghan Markle) v The Mail on Sunday and ZXC v Bloomberg;
- the introduction of new Scottish defamation laws and the importance of defamatory meaning;
- the response to disinformation, fake news and social media – including tweeting jurors and contempt.

[Artificial Intelligence and Blockchain for Social Impact: Social Business Models and Impact Finance](#) by Wolfgang Spiess-Knafl *Artificial Intelligence and Blockchain for Social Impact* provides an accessible overview of artificial intelligence (AI) and blockchain technologies, and explores their applications for social enterprise and impact investing. Situated at the intersection between technology, fintech, social enterprise, impact investing and social impact, this book is a valuable resource for upper-level courses across all these areas. It also offers an introduction to this emerging topic for researchers and business professionals.

The first introductory practical guide of its kind, based on the ICGN training course on stewardship developed by the authors, [Governance, Stewardship and Sustainability](#) brings together principles of corporate governance, investor stewardship and enterprise sustainability in the context of institutional investment. Professor **Elroy Dimson** at the **Cambridge Judge Business School** says 'Dallas and Lubrano's guide to stewardship is concise, evidence-based and implementable. Responsible investors should read it from cover to cover. I recommend it strongly.'

[Motivation: The Ultimate Guide to Leading Your Team](#) "A fascinating and practical book that explores two big questions every manager and leader needs to answer. How do I get the best out of myself and how do I get the best from others? Curious to find out more? Then dive straight into this highly engaging read." **Professor Paul McGee** – aka **The Sumo Guy**, *Sunday Times Best Selling Author and Motivational Speaker*

[New Drugs, Fair Prices: Managing the Pharmaceutical Innovation Ecosystem for Sustainable and Affordable New Medicines](#) *New Drugs, Fair Prices* addresses the important question of how we might get the innovative new medicines we need at prices we can afford. Today, this debate is impassioned but sterile. One side calls for price controls, discounting their impact on investment in innovation. The other points to miraculous new therapies, disregarding their affordability and social inequity. This polarized argument creates more heat than light, threatening the social contract between the industry and society on which pharmaceutical innovation depends.

[Lie-Ability: How Leaders Build and Break Trust](#) Business success depends on the ability to build trust. Trusted brands succeed and sustain. Trusted leaders inspire followers, grow companies, revenues and futures. But sadly, deceit has infected business and become widespread. Far too many leaders now use their own "alternative facts", to mislead and misinform their customers, colleagues and communities. The skilfulness and ease with which some leaders now lie has become a Lie-Ability. And when customers stop trusting the products, services or the stories a leader tells, then the business suffers.

The purpose of [Fit for the Leadership Challenge: The 17 Keys Leaders Need to Win Big in High-Risk Environments](#) is to provide insight on how risk impacts every aspect of leadership, including the mundane, routine, and nonglamorous aspects of leadership
